Subject: Taylor Products Qualifying for LEED Credits

W.F. Taylor Co., Inc. certifies that the following adhesives qualify for a LEED credit point in the U.S. Green Building Council LEED rating system under the Indoor Environmental Quality category, Credit 4.1, Low-Emitting Materials, Adhesives & Sealants.

- Taylor 2033 Clear Thin Spread Adhesive
- Taylor 2040 Premium Cove Base Adhesive
- Taylor 2055 *Performance Plus* Fast Tack Carpet Adhesive
- Taylor 2091 *Tuff-Grip TPS* Vinyl & Rubber Flooring Adhesive

These adhesive products are currently third party certified for low VOC emissions under the Carpet & Rug Institute Green Label Plus and GREENGUARD certification programs.

All of these adhesives also meet the requirements of the California South Coast Air Quality Management District (SCAQMD) Rule 1168 and the California CHPS Section 01350 for adhesive and sealant applications.
